

"PORTFOLIOS IN ARCHITECTURE"

April 23-May 15

Gallery Hours Wed-Sun 1-6 PM

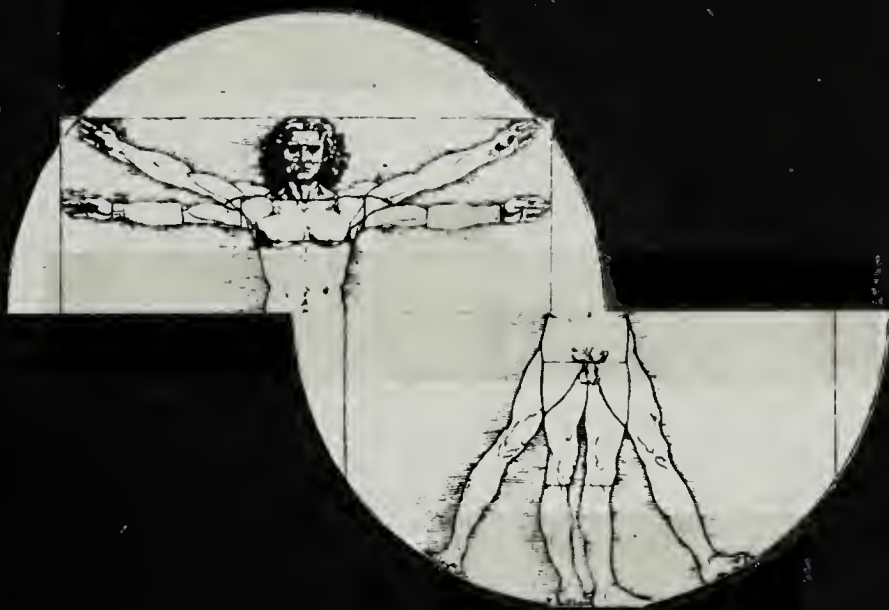

Reception at STOREFRONT

April 30. Saturday 6-8 PM

From April 23 through May 15, STOREFRONT for Art and Architecture will present "Portfolios in Architecture", an exhibit of selected portfolios of young architects from this country and Belgium. Each portfolio will contain drawings and photographs of their specific projects. The portfolios will be displayed in the gallery, along with other full-size drawings by the architects, for public view.

"Portfolios in Architecture" was conceived by STOREFRONT to provide an opportunity for the public and the profession to examine the works by these architects in close detail. The existing 'concept' of portfolio is used in this exhibit to communicate their works, to acknowledge their differences, and to consolidate their similarities. We hope the "Portfolios in Architecture" will help to broaden our architectural choices, and to develop collective acknowledgement to the future of man-environment.

EXHIBITION OF FOLIO S.

"portfolios in architecture" March 30, 1983.

In March 23, at STOREFRONT, the participants in "Portfolios in Architecture" from New York City held a meeting to discuss the show. From the meeting the following decisions were made. These decisions were made with full consideration for those participants who must deliver their materials through mail. Therefore, some of the more elaborate design schemes for the exhibit was abandoned to avoid transportation problems.

The show will exhibit two items or materials from each participants. They are the portfolio and a supplementary visual board. The inclusion of the visual board will strengthen the show, as well as to provide an opportunity for each participants to show larger work in its original state.

The show is from April 23 through May 15. The opening reception date is now scheduled to April 30, Saturday, 6-8 PM at STOREFRONT. This change was made to give us an additional one week of production time for the planned catalogue to be ready by the reception date. The portfolios will be displayed on a table(s) at the center of gallery space. The supplementary visual boards will be displayed on the walls.

A. PORTFOLIOS

2. The portfolios should be made to withstand the use of its viewers. All inside materials should be protected with plastic sheets, and provide additional backing to further strengthen them if necessary.

4. Portfolio should contain a biography which will inform its viewer about your background.
5. We hope to encourage the participant's freedom and expression in their portfolio. Beyond the standard outline stated above, the type and the design of its contents will be up to the individual.

3. Provide additional 1/2" edge all around the board. If the edge become damaged during mailing, we can cut them to exact 25 1/2"x33" just before mounting them for the show.
4. The board will be reduced to 8 1/2"x11" size for the catalogue. Colors and surface construction will be allowed. The catalogue will be black & white.
5. If you wish to have the board return to you, provide the necessary postage.
